Full Stack Developer

MCA student and aspiring Full Stack Developer with hands-on experience building web applications using React.js, JavaScript, Python, Flask, FastAPI, and PostgreSQL. Skilled in responsive UI development, REST API integration, and database management, with projects in web security and AI-powered EV charging solutions. Passionate about developing scalable, efficient, and user-friendly applications.

Technical Skills

Languages	:	Python, HTML, CSS, JavaScript
Frameworks	:	React.js, Flask
Databases	:	MYSQL, PostgreSQL
Dev Tools	:	Visual Studio Code, Github
Cloud and Other Technologies	:	Google Cloud, Machine Learning Fundamentals

Projects

INTERNET BORDER PATROL *Python, Flask, VirusTotal API* Source Code

- Developed a real-time URL safety analyzer using Python and Flask for identifying potentially malicious websites.
- Integrated the VirusTotal API to submit URLs for analysis across 60+ security engines.
- Processed and presented threat classifications through a web-based interface to help users assess URL safety.

AI-POWERED DIGITAL SCAM PREVENTION *Python, Flask, Machine Learning* Source Code

- Developed an AI-powered scam detection application using Python, Flask, and machine learning to classify potentially suspicious digital threats.
- Implemented ML-based threat classification to analyze suspicious inputs and categorize potential scam activity.
- Developed a responsive web interface to present threat analysis and detection results to users.

EV CHARGING SYSTEM *Python, FastAPI, React.js, TypeScript, PostgreSQL, SQLAlchemy, REST APIs* Source Code

- Developed RESTful APIs using Python and FastAPI, with PostgreSQL and SQLAlchemy for efficient data management.
- Built a responsive React.js and TypeScript frontend and integrated Open Charge Map API for EV charging station discovery.
- Developing machine learning-based predictive queue management and energy demand forecasting using Scikit-learn, Pandas, and NumPy.

Education

MASTERS OF COMPUTER APPLICATIONS Coimbatore
Rathinam Technical Campus *2025 – 2027*

B.Sc in Computer Science Pollachi
Bachelors of Computer Science *2022 – 2025*

Certifications

- CLOUD COMPUTING - NPTEL SWAYAM- 2026
- AI FOR BUSINESS PROFESSIONALS - Powered by HP Life- 2026
- EXPLORING DATA TRANSFORMATION WITH GOOGLE CLOUD - Google Cloud- 2026
