Summary

Motivated MCA student with hands-on experience in Python, Full Stack Web Development, AI, Machine Learning, PHP, and MySQL. Proficient in developing secure, responsive web applications using Flask, JavaScript, HTML, CSS, and Bootstrap. Experienced in building AI-powered and cybersecurity-focused projects with strong problem-solving, analytical, and teamwork skills. Seeking a Software Developer or Python Developer role to develop scalable applications and contribute to innovative software solutions

Projects

Internet Border Patrol Link to Demo

Python, Flask, VirusTotal API
Built a Website Safety Checker using Python and Flask that analyzes URLs in real time via VirusTotal API, scanning across 60+ security engines to detect malicious, suspicious, and harmless threats through an interactive web interface.

AI-Powered Digital Scam Prevention Assistant Link to Demo

Python, Flask, Machine Learning, VirusTotal API
Developed an AI-powered web application for real-time scam detection. Integrated the VirusTotal API to identify malicious and phishing threats. Applied Machine Learning for accurate threat classification. Built a responsive interface using Flask, HTML, CSS, and JavaScript.

House Rental Management System Link to Demo

Developed a full-stack web application using PHP and MySQL to manage rental properties, tenants, payments, invoices, and reports efficiently. Implemented secure authentication, responsive UI design, CRUD operations, and database integration using HTML, CSS, JavaScript, and Bootstrap.

Education

2025 - present	Master of Computer Application at **Rathinam Technical Campus**	(GPA: 6.9/10.0)
2022 - 2025	Bachelor's Degree in Computer Science at **Nallamuthu Gounder Mahalingam College**	(GPA: 6.7/10.0)
2022	Class 12th at **Government Higher Secondary School Vettaikaranpudur**	(58)
2020	Class 10th **Government Higher Secondary School Vettaikaranpudur**	(63.8)

Certifications

AI for Business Professionals

Powered by HP Life - 2026

Cloud Computing

NPTEL SWAYAM - 2026

Exploring Data Transformation with Google Cloud

Google Cloud - 2026

Data Analytics with Generative AI

Simplilearn Skillup - 2026

Introduction to Computers

Microsoft coursera - 2025

Design Thinking and Innovation
